WHAT WE DO

Our Products & Services

Our Services

We understand that different customers have different needs. That's why our sourcing services are scalable, so that we may provide you with the precise combination of global sourcing solutions that you need most. Customers may choose to merely source their custom items through Virtual Sourcing, taking advantage of our value pricing from fully vetted factories. Other customers, for example, may want to add on-site inspections, shipping & logistics, financing, and domestic warehousing services. At Virtual Sourcing & Logistics, you may select the service or combination of services that provide you with the most precise value.

On-site Inspection Services

This is only important if you manufacturing the goods from scratch. Virtual Sourcing can provide a team of on-site quality inspectors to monitor progress of your product through manufacturing. These inspections can occur before, during, and after production with first article approval, in-progress inspections, and final inspection. Inspection reports would be posted on the web portal, providing visibility to the quality status of your project.

Shipping & Logistics Services

Your timeline is our timeline. Virtual Sourcing & Logistics has long-established relationships with both local and international shippers, and we're experts in all applicable shipping regulations. Our knowledgeable logistics teams can work to ensure that your products are delivered when and where you need them, as efficiently as possible. Products could be shipped to Virtual Sourcing domestic warehouse, or to your designated receiving location.

Domestic Warehousing Services

At your discretion, Virtual Sourcing could store your products in our domestic warehouse and then ship to your receiving location, according to your schedule.
